11) Submitted for orders with reference and the members note on the subject

Hbom 19.4.29

12) The proposal of the director of agriculture is that the juvenile prisoners of the Central Jail may be trained in vegetable gardening at the Sunkal Horticultural farm. The D.G. of prisons who was consulted says that the proposals are tantamount to the establishment of a separate jail for Juveniles, a Borstall institute as he calls it. He suggests that as the question of starting a Borstall institute has been under the Government for some time past, the question may be taken up.

13) The director of Agriculture seems to be referring to Juvenile prisoner Borstall institutes, are intended for adolescent prisoners, who are above 16; and below 21 years of age, while reformatory schools are intended for juveniles under 16 years of age. It is not clear to which of these Class of prisoners the director of agriculture is referring. He seems to be referring to the latter class of prisoners

WD 01229—GPB—37,500—1-9-26

Serial No.

while the D.C. of Prisoners seems the training of the foresters. This point seems to require elucidation.

(4) It matter if it is the case or the other, it is a question of funds. The Superintendent Govt. Gardens thinks that he can arrange for the training, if proper arrangements can be made for their housing and supervision. The idea thus seems to be to take away the juveniles from the Central Jail and keep them on the Central Farm. This would mean putting up suitable buildings for their accomodation, and employment of additional staff for watch and ward.

(5) Besides, for the removal of the juveniles to a new institution of this kind, legislative sanction seems to be necessary. As this means time and what is more money. The question of opening a Borstall institute has been repeatedly urged per the consideration of Govt. Per the February Session of the legislative Council, Mr. Chandrasekhariya had tabled a resolution about the opening of reformatory Schools. Read after Row is invited to the minute of

15) Member in Real Connection in the file linked to this.

16) It does not however appear necessary to abandon the idea of training these juveniles and the Central Farm on account of these considerations. The portion of the Jail garden on which they are working, is expected to be set apart for adult prisoners, and the juveniles will probably have no garden for them to work in. Hence the present proposal. It is for consideration if these juveniles cannot be given the training, and without being housed there. They may perhaps be taken over every morning and brought back every evening in charge of Warders selected for the purpose. It is doubtful if this suggestion is practicable, ~~especially as the farm is about 3 miles from the jail, and the~~ in view of the tender age of the prisoners, and the distance of the farm from the central jail. However if approved the D.G. of Prisons will be consulted as to whether this suggestion is feasible.

4 To Jail, D.G.P. Prisons
No G 12694 dt 1.6.1927

States that it may not be possible to have a separate institu on the Sumkal Farm for juveniles a enquires whether it will be possible to move the juvenile prisoners t the Sumakal farm every morning & work there and bring them back the same evening to the jail

2 Nov 1.6.1927

From The Secy.
No 934/86-26.D 20.6.27
with ref to the above states that the Juveniles c only be sent under a strong escort to and from the jail/ from outer jail/ Requests sanction for a guard of 1 Headwarder and 10 temporary warders to send the prisoners with outer farm.
Subject: was called for proposals for the Starting of a Boot al Institute out of the Sum realised by the sale of jail lands.. this may probably await - till then. If it is considered necessary to work this proposal the D.G.P. may be requested to point out the sources for meeting the ex penditure and the prisoners may probably be tried for a period of 6 months in the

Serial No.

24) The proposal of the D.C. of Prisons involves an additional expenditure of Rs 170 per months. It is doubtful if funds can be found for this.

25) In another Connection, as per orders of the Member the D.C. of Prisons has been asked to submit proposals for a Borstal institute and for with the idea of collecting the Cost out of portion of the money expected to be realised by the Sale of the Site Comprised in the Jail garden.

26) The present proposal may perhaps lie over the orders are passed on the question of starting a Borstal institute.

27) A. Major A.G.P.:- Gen. Secy) 7/7

First Member. 8/7 8/7

I think its high time that we took up this question. Some of these boys & lads are very smart & this a step to make them criminals by associating with hardened Criminals.

I rather think that if suitable training is given as Mr Bal has to be accomodated here. The Borstal report shows that there is not much of punishing & the boys are more or less on their honor — & the discipline of the elected elder lads which is even more strict. If these lads & boys are turned into Scouts

DECISION arrived at ~~th~~ at the meeting of the Dewan, First Member of Council and the Senior Surgeon, on 11th July 1927.

The Senior Surgeon should, in consultation with Mr. Krumbiegel, decide whether Sunkal or Hebbal will be more suitable for training juveni prisoners. Perhaps, Sunkal will probably be ~~suitable~~. The idea is to put up a building at a cos of not exceeding Rs. 25,000 or Rs. 30,000 for th ~~adolescent~~ criminals. Not much should be requir in the way of watch and ward. The boys should b treated as being more or less free and left on parole. Some attempt should be made to get them into the Scout Movement as probationary scouts.

The Senior Surgeon should, in consultation with the Chief Engineer, submit proposals for th buildings etc. The cost for this should be met out of the realisations from the sale of lands belonging to the Central Jail, for private house building.

soliciting Sanction of Govt. Orders
re Proposals for training Juvenile Prisoners
in Vegetable Cultivation at the Govt. Farm

17th February 1937.

om

The Offg. Director of
Agriculture in Mysore,
B a n g a l o r e .

To

H. C. Javaraya, Esq., L.Ag.,F.L.S., F.R.H.S.,
Offg. Superintendent,
Government Gardens,
B a n g a l o r e .

Has the honor to state that since the Jail Garden has been taken up for effecting some improvements and a small area inside the Jail wall is desirable for growing some vegetables by the prisoners which work has been so far done in the outer garden, it a has been proposed by me that the area now worked by the Juvenile prisoners should be made available for regular prisoners. It is also very desirable that the Juvenile prisoners should not be kept in association with the adult prisoners and it is proposed that they should be employed in the Sunkal Farm where they could have plenty of work and at the same time, be taught proper methods of cultivation. This will merely require a suitable building to be erected for them and the necessary guard. I believe, the authorities are quite willing to do this provided it is done so that these Juvenile offenders should be allowed to work in the Sunkal Farm as proposed. I propose to this effect that a proposal may be sent to Government when they will take the necessary action

No. 934 / 86-26. Office of the Inspector-General of Prisons in Mysore,

Dated Bangalore, 20th June 1927.

From

The Inspector-General of Prisons
in Mysore, Bangalore.

To

The General Secretary to the Government
of H.H. the Maharaja of Mysore,
Bangalore.

Sir,

With reference to your No.G.12694/Med: 74-26-4 pro dated 1st June 1927 re: the training of Juvenile prisoners in vegetable cultivation at the Sunkal Horticultural Farm, I have the honour to forward herewith for favour of your information copy of letter No.987/F.19 dated 13th June 1927 from the Superintendent Bangalore Central Jail and to state that as the Juveniles can only be sent under a strong escort to and from the Jail and the Farm, I request that a guard consisting of 1 Head warder and 10 temporary warders may kindly be sanctioned to enable the Superintendent to send the prisoners to work in the Farm.

I have the honour to be,
Sir,
Your most obedient servant,

Inspector-General of Prisons.

Letter No. 987/P. 19 dated 13th June 1927 from the Superintendent, Central Jail, Bangalore, to the Inspector-Gene of Prisons in Mysore, Banga

-@-@-@-@-@-@-

With reference to your No. 874/86-4 3 1927 I have the honour to intimate that for purposes of schooling the-type-of prisoners in question are divided into two classes Juveniles under 18 years and Adolescents from 18 to 21 years.

2. Both Juveniles and Adolescents are divided into two batches and given 2 hours of study daily viz., 10 to 12 A.M. and 2 to 4 P.M.

3. I would beg to state that on the roll there are 11 Juveniles and 19 adolescents and all the 30 deserve to be sent to the Sunkal Farm for learning Agriculture. I would beg to propose that they may be sent there starting from the Jail at 7-30 A.M. and work till 12 noon and return to the Jail by 12-3 0 P.M. and thereafter they will be made to attend the School one batch between 2 to 3 P.M. and another batch between 3 and 4 P.M.

4. This arrangement strikes me as convenient and advantag ous as (a) it would not clash with the hours of work at the Sunkal Farm and (b) it would be convenient to teach them - industries in Jail and as while one batch is at school the other may work in the sheds and vice versa (c) since they are taught only Agriculture in the Sunkal Farm it is difficult to find out their aptitude for industries and discover their - possibilities unless those precocious and impulsive young boys are given intensive moral and industrial training in the Jail.

5. The next question to be considered is about the escor to take them to Sunkal Farm. The enclosed list will show that the present strength of warders and officers are fully engaged and their services cannot be spared for this purpose. I have

s to watch prisoners working elsewhere such und of Superintendent's quarters, ladies'

the Inspector-General of Prisons

6. According to standing Orders these prisoners require to be escorted by 6 warders on Rs. 10 + 2 D.A., + 3 House rent, each with a Head Warder on Rs. 15 - 2 D.A.- 3 House rent in charge but as many of the Juveniles and adolescents are habituals and are very mischievous, impulsive, given to practical jokes and fleet of foot it would be very difficult for warders to prevent escapes if the you fellows should seriously or out of pure deviltment take to sudden flight on the way to Sunkal Farm which is 3 miles to the Jail.

As such I beg to recommend that a strong guard namely one warder for every three prisoners thus making a total of 1 Head warde and 10 temporary warders may kindly be sanctioned to enable me to ser them to the Farm.

With reference to the correspondence end ing with your letter No. 934/86-26, dated th 20th June 1927 about the training of Juvenil Prisoners in Vegetable Gardening at the Sunka Horticultural Farm, Bangalore City, I am directed to request you to report, in consultation with Mr. Krumbiegel, whether Sunkal or Hebbal will be more suitable for the training of Juvenile Criminals. Government are of - opinion that Sunkal will ~~be~~ probably be a bette ~~place~~. A building may be put up there at a cost not exceeding Rs. 25,000/- for the Juve nile Prisoners. Not much should be required in the way of watch and ward, the boys being treated as being more or less free and left o parole. They should also be brought into th Scout Movement as probationary scouts, ~~and so~~ increase their self respect.

2. After the question of the site is - ettled in consultation with Mr. Krumbiegel, roposals for the building may be submitted i consultation with the Chief Engineer. The cos of the building will have to be met out of th realisations from the sale of sites comprised in the garden of the Bangalore Central Jail - which has been taken over for purposes of hou building.

and other incidental expenditure

avl./22

Letter No.1305/F. [illegible]124dated 15-8-1927 from the Superintenden Central Jail, Bangalore, to the Insoector-General of Prisons in Mysore, Bangalore.

-@-@-@-@-@-@-@-@-@-@-

In reply to your No.C. 11-2/82-25 dated 4-7-27 calling for proposals in detail re: buildings and establishment etc., required for the establishment of a Borstal Institute in this State, I have the honour to report as under:-

2. Buildings. The average number of prisoners confined in this Jail fit for Borstal training may be taken as 30 but accommodation is provided for 60 in the plan enclosed to meet likely increase in the strength of such prisoners.

3. Accommodation. A rectangular building with a cheery prospect of open yards in the centre and outside the four walls is proposed without any outer wall.

4. The details of the plan of the structure are given below:-

3. Dormitories each to accommodate 20 boys, each prisoner being allowed not less than 36 sq.ft. of superficial area and 500 C. ft. of breathing space (marked A.B.C.)
6 separation cells (marked D.E.F.G.H.I.)
1 Store room for raw materials etc., (marked J.)
3 Work shops, Carpentry, Carpet and Cloth weaving (marked K.L.M.)

School rooms (marked N.O.P.)

The above buildings are to be located in the two sides of the rectangular block.

In front - shall be located

1 Infirmary Marked
4 Office rooms (one for Medical Officer (marked R.) one for Resident Master S, one Office for Supdt., marked T and Off for clerks marked U. c
1 Guard room marked V.

and at the back shall be located,-

1 Dining room . . . . marked W
2 Kitchens X & Y one for vegetarians, another for non-vegetarians.
1 Kitchen stores Marked Z.
1 Ration stores and cleaning room J & Z respectively.
2 Latrines marked 1 & 2 are provided at a distance from the ration room
Isolation shed marked 3 and fuel store marked 4 are also shown.

I forward herewith a rough ground plan of the buildings as proposed above.

5. The following establishment appears to be necessary.

Superintendence:- The Superintendent of this Jail will be Superintendent of the Institution.

Executive Establishment:- Resident Manager from the Education Department on 60-4-80
1 Sergeant 40-4-60
8 Porters of whom one shall be a Gardener by profession on Rs. 15/- each

Clerical :-1 Steward or Store-Keeper for charge and issue of rations and raw materials 30-2-40
1 Accountant 25-2-30
1 Clerk 25-2-30
1 Orderly for Manager 12

Mechanical and Education Establishment etc.,

1 Lay teacher from the Education Dept. 30-2-30

2 Religious Ministers 10 each

1 Sports instructor 20-1-25
3 work instructors (1 for each work shop) 25 (
2 cooks 15 (
2 Scavengers & Sweepers Rs. 10 each.

Medical :- 1 Sub Asst: Surgeon grade pay 20 allowance.

To begin with Resident Manager, Sergeant 8 porters 2 scavengers and 2 cooks may be provided with quarters on the premises of the stitution.

The cost may be as follows:-

Borstal building	43217	
Quarters	31640	
Furniture & other necessaries	2000	
Recurring:-		
Establishment	6324	at minim rates.
Maintenance at Rs.100 per head of inmates which includes rations clothing and other charges.	6000	
Contingencies	200

To

The General Secretary to the Government
of H.H. the Maharaja of Mysore,
Bangalore.

Sir,

In continuation of my letter No. C. 130-7/86-26 dated 5th August 1927, I have the honour to forward here-with for favour of perusal copy of letter No. 773 dated 21st Octobe 1927 from Mr. H.C. Javaraya, Officiating Economic Botanist and Superintendent Government Gardens in Mysore, regarding the con construction of buildings for locating Juvenile prisoners and training them in vegetable gardening and other professions.

I have the honour to be,
Sir,
Your most obedient servant,

Inspector-General of Prisons.

Letter No. 773 dated 31st October 1927 from the Offg: Economic Botanist, and Superintendent, Government Gardens in Mysore, to the Inspector-General of Prisons in Mysore, Bangalore.

-@-@-@-@-@-@-@-@-

Subject:- Construction of a building for the Juvenile Prisoners.

-o-o-

With reference to your letter No. C. 176-3/86-26 dated 1st August last requesting me to intimate whether the Sunkal Farm or the Hebbal Farm will be more suitable for the location of a building for the Juvenile prisoners, I have the honour to state that the Sunkal Farm will be more suitable for training Juvenile prisoners in vegetable gardening though the Hebbal Farm is preferable from the point of view of health. In this connection, I venture to make a suggest: that since a large sum of Rs. 25,000/- is going to be sent for a building, the Institution for Juvenile Criminals may be established independently on a site close to Bangalore where the land is suitable for gardening and where facilitie may be created for training the inmates in other professions such as carpentry, black-smithy, rattan work etc.

" C O P Y "

Inspector-General of Prisons.

August 1928.

Letter No. 161 dated 11th August 1928 from the Superintendent Central Jail, Bangalore, to the Inspector-General of Prisons in Mysore, Bangalore.

-*-*-*-*-*-*-*-*-*-*-*-*-*-*-

With reference to your Memo No. C.176-13 dated the 23rd July 28 in the matter of submitting revised plan and estimate for the construction of a Borstal Institute at Sunkal Farm on the lines suggested in letter No. 232 dated the 26th May 1928 from the Consulting Architect to the Government of Mysore to the Chief Engineer in Mysore, I have the honour to forward for favour of your perusal, a copy of the note drawn up by the Medical Officer of this Jail and to state that I am in full accord with him as to the object of the Institution, to the selection of proper site and to the enactment of necessary legislation relating to Juvenile delinquents prior to the opening of the Institute.

2. As regards buildings, I would also take 50 as the average number of inmates to be accommodated in them; but considering that so many as 313 boys of and below 22 years of age pass through the Jail in a single year and several of these might, instead of being sent to Jail for short terms as now, likely be given indeterminate sentences for long terms in order to give them the benefits of Borstal training, the proposed buildings will have to be so constructed as to admit of their being extended. The idea of converting one of the District Jail into Borstal Institute by effecting necessary structural alterations seems to deserve consideration both from financial point of view and the importance which the District would acquire, by the location of a Borstal Institute there

As regards the minimum structural requirements for the Institute I would, to start with, propose the following buildings:-

(1) Association Ward — One Dormitory to provide sleeping accommodation for 50 boys; each boy should have the usual ground space of 36 square feet and 500 c.ft. of breathing space. Half of this building may be used as school in the day.

(2) Cells. Three small rooms for lodging refractory characters as a punishment, each having a superficial area of 90 sq.ft. and 900 c.ft. c breathing space.

(3) Kitchen. One room with a pertition wall in the midc so as to provide space for 2 Kitchens, one vegetarian and another non-vegetarian.

(4) Stores. One room for keeping rations, implements and work-shop tools etc.

(5) Work-shop. A building with sufficient accommodation to train about 30 students in two industries preferably tailoring and carpentry. It will be very necessary to give industrial trainin to the Juvenile prisoners, since agricultura training is not likely to benefit those comi from urban areas. Even the rural section would be profited by receing training in the above industries in addition to the agricul-tural training.

(6) Residential Quarters. (a) One for the Manager or the Resident Master. One room in this building may be se apart for purposes of office and keeping records.

(b) One for the Sergeant

(c) Lines of six units for porters or Warder-boys.

(7) Guard-Room If a Verandah to the Dormitory is provid it could be used as a guard room. For the ti being I submit the buildings above referred seem quite sufficient.

A separate dining room seem necessary. The provision of a latrine for the Juvenile prisoners also seems un-necessary and it is desirable that they should be taught to practical the trench or the Jewish spade sys which

which would also improve the soil.

In case you are pleased to agree with the above suggestions and consider the idea of converting one of the District Jail into Borstal Institute to be not feasible, the Chief Engineer may kindly be addressed to cause the necessary details to be worked out and get plans and estimates made on the lines suggested

Inspector-General of Prisons.

August 1928.

NOTE ON THE PROPOSED INSTITUTE FOR JUVENILE PRISONER

It is proposed to erect the Institute in the Sunkal Farm at a cost of about Rs. 10,000. The object of locating it near the arm appears to be to give facilities to the boys for training n vegetable gardening. Whether the Institute is to be expensive r economical or whether it is to be located near Sunkal Farm or lsewhere, the main objects os such an institution have to be kept n mind, viz., to reclaim these budding criminals and to benefit hem for a ~~xxxfxx~~ useful life. This principle holds good for 50 s well as for 500 boys. It is to be presumed that legislation elating to child offenders will precede the establishment of the nstitute and such legislation will among other things provide for ndeterminate sentence. It is needless to point that as the in-ates of the institution will make a prolonged residence therein he site chosen should be such as to ensure their health, and be ree from Malaria; and where good drainage and water supply could e secured.

As regards structubal requirements, provision should be made ot only for farming and gardening but also for training in handi-rafts, as the boys that may be admitted will not all belong to ural and agricultural class but may come from urban areas. oreover ample scope should be given for training each boy accordin o his aptitude. Taking 50 as the average number of inmates the ccommodation should consist of :-

1. Dormitories 2.
2. Single Rooms 6.
3. Infirmary 1.
4. School Room 1.
5. Work-shop 1.
6. Superintendent's Office 1.
7. For Clerk and Records 1.
8. Kitchens
   - Vegetarian 1.
   - Non-vegetarian 1.
9. Stores 1
10. Central Guard Room 1.

11. Quarters for the Staff and Menials

Should financial reasons stand in the way of meeting the above mentioned minimum requirements and in view of the fact that it is none to early to start an Institute, the following alternative proposal may be considered. There are the exsiting District Jails at Head Quarters of Districts such as at Shimoga, Chickmagalur and Hassan. One of these, preferably the one at Hassan could be utilis for the purpose of an Institute. As there are buildings in the Ja the cost of additional buildings and structural alterations to the existing ones, will be comparatively small. Land would be availab and could be easily acquired in close proximity for farmingand a small work-shop could also be fitted up on the premises and the object for which the Jail is now used i.e., as a District Lock-up could be met by the construction of a new Lock-up. Whether the aggregate cost of converting the Jail into an Institute and buildi a new Lock-up is less than the construction of a new Institution altogether will have to be investigated.

A report based on the study of 50 Juvenile prisoners drawn up by the Medical Officer of the Central Jail has already been submitt to the Inspector-General of Prisons. This study has revealed reveal that there is a multiplicity of factors tending to Juvenile Crime and which are capable of being adjusted to the advantage of the individual by a system of individualised training. The present system of confining them with the habituals and adults casuals is t be greatly deplored. The question is therefore one requiring urgen consideration.

Dated 6th August 1928.

Sd/- Frank Noronha,
Medical Officer, Central Jail.
